

CRITICAL INFRASTRUCTURE MODULES

1 x 1000 kVA UPS Module Data Sheet

BENEFITS

- High Degree of Redundancy
- Efficient
- High-Quality
- Raised Floors
- Modular
- Scalable
- JIT Manufacturing
- Sound Investment
- Rapid Deployment
- Cost Effective
- Long Life
- Great ROI
- Customizable
- Vendor Neutral
- Supply Chain Management
- Purpose Built
- Industry Standard Components
- Designed for Low Cost Transport and Installation
- LEED, UL, IECC and other certifications available

E3 NV, LLC

info@e3nv.com

Modules can be configured side-by-side, end-to-end or stacked. Stacked units will require a custom configuration. The cut away above has several optional features selected such as the FM 200 fire suppression system. Air conditioners do not have to be rooftop units. Please contact us for customization options.
